

Application for anaphylaxis training through the NSW Anaphylaxis Education Program

For Independent, Catholic schools and education and care (ECEC) services a fee of \$350 plus GST per school/service will be charged for training. An invoice will be sent after the training session.

Please complete this form and email to schn-anaphylaxis@health.nsw.gov.au

School/Service name:	
Contact person: (Name/position)	
School/Service ABN:	
Street address: (Please include any information that may be useful if you are tricky to find!)	
Parking instructions: (Please indicate if parking is available on site or street parking only)	
Phone:	
Email:	
Technology: (Please indicate if you have a smartboard or smart TV available)	

Student information

1. What is the total enrolment of your school/service? _____
2. How many students (including expected enrolments) have already been prescribed an adrenaline injector?

The Sydney
children's
Hospitals Network

Anaphylaxis training

1. Please indicate preferred time and date for the training. Please allow 75 minutes for schools and 90 minutes for childcare centres for the training and enough additional time for staff to arrive.

2. Number of staff who will attend this training session _____

NOTE: It is recommended that as many staff as possible attend the training including administrative staff and casual staff. Schools/Services should consider extending an invitation to their scheduled training session to other community members as appropriate. This can include casual staff who are not already working on that day, the canteen/kitchen staff, bus drivers, ground staff etc.

Objectives of the training

- Explore risk minimisation strategies
- Identify allergic reactions and anaphylaxis
- Use an ASCIA action plan
- Practice using an adrenaline injector

Additional information about anaphylaxis training for ECEC services

All ECEC services are subject to mandatory training requirements set out in the Education and Care Services National Regulations. Under this requirement ACECQA has included ASCIA-Anaphylaxis Training for Children's Education/Care as one of the approved training courses. This is the training that the NSW Anaphylaxis Education Program delivers to ECEC services.
